Reviews for La Belle et La Bete - Room 20

1) **What was 1 part that you liked?**
2) **What was 1 part you did not really like?**
3) **What could they have done better?**
4) **What types of plays do you like?**

Response #1

1. One thing I liked was that when gaston bumped into the wall because it was funny and dramatic.

2. I did not like that in the play the trickshots that they failed on because if it went in it would be cool.

3. They could have had better costumes because it would look realistic.

4. I love funny plays because it entertains me and makes me laugh.

Response #2

One thing I liked of the play was the jokes. For example when belle was about to kick the door he move and was so funny.
I didn't really like the part when the beast vanquisher couldn't vanquisher the beast.
They could have been more serious,
I like action and adventure plays .

Response #3

1. One part I liked about the play was that there was a **lot** of jokes in it and they kind of did there own version of beauty and the beast. I also liked that they added some parts french.

2. I didn't really like how they just put a cloth of some kind to make the prince turn into the beast cause that didn't really look like the beast.

3.They could have gotten better costumes like for the beast,they could've gotten a fur coat or a animal costume or something like that.

4. I like plays that are about drama and sorrow...

Response #4

1) One part about the play that I really liked was that it was really funny. My favorite part was when at the end they asked where they were born and the guy Michael that he was born in the hospital. Or the part when the table broke and they asked where they got the table and the table set Kijiji.

2) One part that I did not really like was when the prince asked Belle if She would marry him.

3) I think that they didn't need to do anything better but the part that when the prince asked if she would marry him.

4) I like comedy plays because they are very funny and I like place where they are funny.

Response #5

My favourite part is when the prince propose to the the princess. I think it was really funny. I liked it because it was like it is all up to the princess. One part I didn't like was when they came outside. I didn't like this part because I couldn't hear what they were saying because they were screaming. They could of entry without them screaming. I think it would be better if they didn't scream. Also they could introduce themself in the beginning. I like to see comedy plays because they are funny. Also I like comedy because sometime they are really interesting.

Response #6

I want to see school of rock.
I want to see it because i have seen a lot of scenes from it.i have watched both the movie and tv series and i loved them,i have also watched some of the clips from the musical and they were great so i would love to see school of rock if i had a choice to see any movie i wanted.

Response #7

What was 1 part that I liked
One part that really liked was the battle between **Gaston** and **the Beast.** I Liked it because it was funny, when Gaston brought up his sword and the beast would smash it down. That Happened for about 3 swords. That was so funny.

What was 1 part I didn't really like
One part I didn't really like was when the students were brought up and they had to act out the Father or the prince or the princess. Because they were told what to do and I like it when there are real acters better.

What could they have done better
I think they could have had other actors to act the other parts for example the Talking tea pot and the candlestick. I think the could also have better costumes.

What types of plays do I like
I like plays where there are actors for every part and the audience is just watching. I liked the opera play of hansel and gretel that was a great play.

Response #8

1) What was one part I liked?
My favourite part was when Gaston and the Beast fought. I thought that it was funny because whenever Gaston took out a weapon and made a war cry and charged, the Beast just slapped the weapon out of Gaston's hand.

2) What was one part I didn't really like?
I can't really think of a part that I didn't like. All of the parts were so funny!

3) What could they have done better?
I think that they could have had other characters in the play like, the talking teapot or the talking candle stick. That way, they could have included more of the audience and I think that it would have been even funnier.

4) What types of plays do you like?
I like plays that include the audience. It is so funny because the audience doesn't usually know what is going to happen and if they are part of the play, it is really funny to see what they do.

Response #9

1)The one part that I liked was when the beast turned back into the Prince. I liked the part when the beast turned back into the prince the most because it was so dramatic and it got me interested in the play.

2)The one part that I did not really like was when the beast picked his boogers and did not care.I did not really like that part because it was gross and it was not actually in the movie.

3)The thing that I think they could do better is that they could have made the play be much more like the actual original movie that was made.

4)The types of plays that I would like to see are movies like Cinderella or Sleeping beauty so I hope that I would be able to see movies like that.

Response #10

The one part I really like in la belle et la bete was when the Beast took Belle on a picnic it was so sweet except the Beast was really funny, and I really like that it was more funny then sad because in the real movie it was sad, and I don't really like sad things I like funny things more. I also really liked when the Beast was fighting Gaston, because it wasn't really violent it was more funny, because at the end the Beast won and it was really cool how they all acted it out. One more thing I liked was the jokes because in one part they were like sitting on a table and the table broke and they're like why is the table so bad and somebody said because it's from Kijiji.The one part I didn't like was when the Beast said will you marry me. It was a little disgusting for me because when I grow up I really don't want to get married. And also the actors were kids because they picked kids from the audience, and also I don't think kids should be getting married at 11.I honestly don't think that they could have done anything better, the only thing I wish didn't happened was the marrying part. That was kind of weird and awkward. I like comedy plays because comedy plays make me laugh and I like to laugh a lot. And when I say a lot I mean a lot.

Response #11

1. The part I liked was when they had a picnic. I liked it because it was very funny. I liked it a little more than the real story because it was way funnier and the real one was very sad.

2. I didn't really like the part when the monster picked it's noise and then ate it. I didn't like it because it was just too much for me. It was also very gross.

3. Maybe they could have made the ending a little more interesting. I think this because it was a little more boring than the rest of the story. At the end all they did was get married and that's all.

4. I like plays that are funny! I also like plays that have a big problem and then in the whole story it's fine at the end. One of the plays I would like to see is Pinocchio!

Response #12

My favourite thing was that the princess accepted the proposal. I thought that it was a really funny. I thought it was funny because the prince asked many times but the princess said no but then finally said yes. One part I didn't like was when the prince became a beast. Something they could have done better was speak a little more of french. I think they could have done that better because they spoke a little french only. Some types of plays I like is funny plays. I like funny plays because they are entertaining.

Response #13
The first part that i liked was where people were kicking the door.

They wasn't really a part that i didn't like.

I don't know what the cloud to better on because i like the play a lot.

I don't have a favourite type of play i like all types of plays.

Response #14

One part I like about the play of La belle a la bete is that when that guy through the flowers and it went into the hoop.

One part I did not like of the play is that when La belle a La bete is when they went out to eat a picnic together.

What they could have done better is that they should have made it little bit more interesting.

I like plays that have a lot of comedy and action.
