

## School Wide Lice Checks

Dear Wilkinson Families

In September 2018 the Wilkinson School Community Council introduced a school-wide lice check program through Lice Squad. Previous to that, regular lice checks were not being done at the school. After dealing with cases firsthand and watching lice cycle through classrooms, a number of parents felt that more could be done to keep lice under control.

The cost of our school-wide lice check program is \$2.26 per child per check. Lice clinics typically charge about \$30/person per check and treatments average \$75/hour/person. Unfortunately, with 500 students at the school, funding the entire program through the Council is not possible. We are therefore asking Wilkinson families to consider contributing **\$5 per child per year** so that this initiative can continue this year and into the future.

Lice can be uncomfortable and dealing with them can be time consuming and expensive. Anyone can get lice and they spread easily. **Schools that do regular lice checks have fewer cases of lice because they are found early and treated before they spread. Over the last two years, we saw this firsthand!**

We do understand that families have different means and different priorities; however, a small contribution from each of us will enable the program to benefit us all. Any amount that you're able to contribute will go into a fund specifically for this program, with the aim of affording (together with Council funding) three checks per year (at the times when outbreaks are most common), depending on the amount raised.
